

Specialized stainless steel suspension system that can be retracted around corners and other obstacles. The unique slider attachments move smoothly over the round track, making removal and re-installation easy.

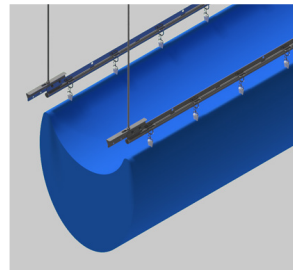

- The flexibility of the design allows for easy removal for cleaning, which helps meet FDA, USDA and other agency guidelines and requirements
- The track and sliders are made of food-grade 304 stainless steel along with food-grade welds to withstand chemicals commonly found in food processing wash down cycles
- 8 ft (2.4m) long stock pieces
- Hangs from ceiling drops eliminating the need for anchor attachments at each end

2 Row Track | 45% Deflation

- Up to 60" diameters (up to 1524mm)
- Fabric suspended at 10 & 2 o'clock
- Noticeable noise & fabric motion at start-up
